by:Niccodr *Wonky Icon Creator by:

Mohab *Source: Thanks in advance for

trying out our free skin and any feedback is appreciated! Maya studio skin. Made with

Maya Version 6.5.5. If you want to download this icon pack visit this link: This is for the skin of Maya. I made the skin especially for a fan of the girl. Color of this skin looks soft and very vivid. When using it, may be the sense of harmony you feel will be not only dreamed. The unique skin made based on Maya CC 2017 (studio v2017) is completely free for all. The basic concept is to do the every skin of top

software by hand for each software's basic concept. Therefore, it is expected that the creation will take much time, but I strongly hope that you like the unique way of skin application. =====

Welcome to give you a professional "Skin Ready" skin you would like to use on your desktop. Maya Skin is a new template. You can use it on MSN, Facebook, Hotmail, Gmail, Yahoo, Live or Xfire. Here you can find basic features: Icons - While keeping the classic look of windows, icons and a few basic buttons are included. The skins looks great on all modern systems. buttons - Some basic ones, as menu, close button, media button and minimize button are included. Programs List - All your programs are listed neatly and smoothly with a little background. New Programs -

Even if our skins are buttons, we managed to make some tabbed buttons with a series of tabs, like how one works with the media buttons. Note - Most of our skins have a custom font, and does not follow the MS windows buttons and border guidelines, this keeps the skin looking modern. Maya Homepage for more detailed feature. The full size is : 152x102 Maya Skin comes with 6 different themes - 3 of them with light colors, 2 of them with dark colors, and 1 of them with a nice gradients effect, however the gradients effect is not included. For instructions on installation see the README file Also check out Maya's Preview, mostly its about testing it before buying, but as a preview the skin works

great. Maya'Veil is a simple windows 7-skin which has an elegant black looking theme, lets you use the windows 7 explorer on your desktop and supports many graphic effects.

Maya'Veil Description: Have you ever wished to use the windows explorer style, at the same time to get more functionality in your desktop? Well, now you can have both, this skin will support both! Maya'Veil is based on Twilight, which is a free theme from the windowsseven.org. So you can check out the look of our skin. The skin supports the graphic effects themes - 3d, bloom and switcher. Also the program list is in line with the old windows explorer style.

Maya'Veil Theme: In addition of the skin, you can use Twilight and its different

wallpapers

What's New In Maya?

Maya is a skin meant for Windows XP / Vista / 7 / 8 / 8.1 / 10 systems. Its main goal is to provide a clean and simplistic skin to the system. This skin has been carefully crafted to fit as a skin to your system, so with many many hours of planning and coding it would be of great help if you gave it a try. It is not possible to have the same looks and feel as of other skins like say Crystal or Diamond and even beyond.
