. A Sea Of Fire. A former Director of Intelligence Directorate of the United States Central Intelligence Agency (CIA) and Senior Lt. Colonel at Guantanamo, Neged Alahmad -Iraqi-American being the one of the strongest voices against what's been termed as a Run-Amok policy by the US military and Central Intelligence Agency (CIA) of torturing detainees, was talking about the "War on Terror", the "Great Satan" and its use of American Laws. Neged wrote and said that Edward Jay Powers, the President of the Marshall Islands, had threatened to take the case of his country to the International Criminal Court and that the United States had to respond; and that Washington responded in a most deplorable manner. What Powers in reality said and that the USA had to respond it did. The response came in the form of Pentagon focusing on the torture of detainees at Abu Ghraib Prison Camp. The Office of the Under Secretary of Defense for Intelligence confirmed the an internal investigation into policies and practices of the previous administration would be conducted within the next three months. After the review was completed in January 2004, it was announced that particular attention would be given to Abu Ghraib Prison and the possible civil or criminal sanctions which resulted from the abuse and mistreatment of detainees. In this video, Alahmad talks about the launching of the war on terror, with the support of the majority of American people, and his emotions are clearly entailed. He calls the actions of American's to fight the war on terror to be half-hearted. NEGED ALAHMAD When asked of his feelings

pertaining to the Presidential election on Tuesday, Neged reacts and says, That's a very interesting question but I'd have to say Americans in general, as a society are very apathetic. The only guy that won the election, even though he as a Republican but has been the proxy of Saudi Arabia, possibly could be worse than what Bush has done. It is not my business to say that but I think that the American citizens and American people in general, are very, very apathetic or they are just totally ignorant about the events that were taking place, and are just totally ignorant about what was going on. So it is difficult for me to
