The virtual world you are in, is called Grid Clash VR. Just like the real physical world, it is organized by spaces. - Space is a basic unit for organizing things. - There are three kinds of spaces, the first is LivingSpace. Each NPC comes to live and play in a LivingSpace. - The second is DeathSpace. - There are two kinds of DeathSpace, have NPC in a DeathSpace. There are NPC(s) which players cannot fight. - The third is the Emergency Questspace. NPCs from LivingSpace enter DeathSpace. - Almost all NPC(s) are the same thing as the LivingSpace, but they are in the DeathSpace. - NPC(s) who enter Emergency Questspace are only in DeathSpace. NPCs(which are in LivingSpace) are called NPC(s) which is not a "Repeater." They are in the important position in LivingSpace. Players will meet NPC(s) in LivingSpace. And normally they do not disappear. That's why players will meet NPC(s) again and again. - NPC(s) which enters Emergency Questspace cannot die. - NPC(s) which enters DeathSpace can die. Players will encounter NPC(s) which dies on the way. Players can obtain NPC(s) by finishing their job as the LivingSpace, then can learn some secrets. About NPC (s): There are two types of NPC(s) - NPC(s) which can learn skills. - NPC(s) which cannot learn skills. NPC(s) that can learn skills, can learn at least one of four skill: -Weapon Skill(Attack Skill) -Fighter Skill(Defense Skill) - Cooking Skill(Ability to cook) - Magic Skill(Ability to cast magic spells) Players can learn skills at NPC(s) by choosing the job. NPC(s) can learn skills depending on their Job.(There are 7 job type) Djangouning (There are two kinds of Djangounings) - There are NPC(s) of Djangounings which can learn skills. - There are NPC(s) of Djangounings which cannot learn skills. Fight, Survive and Run in Nightmares: the Deathrun Suspenseful puzzle-platformer with intense FPS sections coming from the most popular source of inspiration. Eliminate The Zombies, Don't Forget To Keep The Ammo! Play as a Zombie Runner, survivalist hunter or a Runner using your fists, knives and guns. The only way to survive The Deathrun is to run from the relentless, killing games of the flesh-eating horde. The city is full of deadly traps that will try to bring you down, and you have to be on your toes 24/7 to survive it all! Use stealth, find resources and avoid being sucked into the dangerous, dark, corrupted DreamCity. Cyberpunk Explore the world of a fake-reality city designed in a futuristic and cyberpunk-influenced style. You are a Cyberpunk, a life-long mercenary killing anyone who stands in your way of honor and power. Zombie Apocalypse You are a survivor. You live as one of the few humans left after the zombie apocalypse. You hunt, you run, you fight, you live, in order to keep your family safe. Rich Story, Several Choices A unique world: from the dark street of the DreamCity, to the maze of corporations and interanauts that rule the so-called "real world". It is up to you which path you choose, according to your own criteria and the experience you've gained so far. Will you be a respected shark fighting The Deathrun and turning a new page of your career? Or an insignificant minnow seeking shelter under the rug with his family and plotting his own way to survival? Since its inception, I've always been an outspoken asshole, to the point where many of my coworkers suspect that I've been conditioned to be insane by the army. Is it any surprise that I find my nightmares of being trapped in a brightly-lit, concrete box extremely uncomfortable to sleep in? Naturally, the streets of DreamCity give me as much trouble as they did you, my dear reader. I'm a big fan of classic, retro-style shooters, and if you pay close attention, you'll realize that this is precisely the style of this entire game. The glorious, pre-hacked-up gameplay present in the iconic Doom, Doom 2, and Doom 3 videogames has all been implemented here into a gloriously multiplayer-ready shooter that mixes it up when the situation calls for it.
