Flash market A flash market (also known as flash crash, flash crash, liquidity crash or liquidity crisis) is a sudden and sharp price decline or spike in the price of an asset, caused by high trading volume in a very short time, and may lead to a temporary price decrease of up to 50% or more. A flash crash is normally caused by one or more human missteps and systemic problems in the market. One such example was the flash crash of May 6, 2010, which brought down the Dow Jones industrial average. A flash crash is

Powered by Football™, EA SPORTS FIFA 20 introduces innovations for the pitch and between the pipes as well as a revamped control system with a brand-new ‘+’ kick. The new Be A Pro system unleashes the creativity of youth players while making the world’s top stars even stronger by adding physicality and tactical intelligence. EA SPORTS FIFA 20 features: Be A Pro: Dive deeper into your favorite player’s skill and potential, unlocking and developing new moves and tactics that impact the game. Discover Neighborhoods: Live in a vibrant neighborhood in which to play your favorite matches. Score Invincibles: Try to become an Invincible by playing matches with your friends in Blitz Mode. Level Up Your Pitch and Goals: Improve your pitch and your goal nets, becoming an even better organiser of the game. Scheduled Highlights: Watch live matches and rewatch replay-worthy goals across competitions. FIFA 20 introduces a streamlined experience with better accessibility. In addition, players will now earn Player of the Year and MVP status via

experience points and not by simply accumulating titles and awards, giving players a new way to level up and engage with the game. The streamlined experience also included a fully rebuilt Career Mode that gave players the option to manage their own squad for the first time in any EA SPORTS FIFA title. All the regular gameplay features such as FIFA Ultimate Team, Online Seasons, and FIFA Ultimate Coaching System remain unchanged from FIFA 19. Year after year, FIFA continues to not only provide the most authentic and complete sports simulation experience, but also to continue to evolve and take the gaming experience to new heights. This year, the top features from last year's FIFA 19 get a refresh and expansion in celebration of the game's

Every player now has a Personality, with each having his own unique style, speed, and strength, and weaknesses, especially in comparison to teammates. Each Personality also has their own set of Skills and Training attributes. Even Club Names and Kits can change as you progress through a Career Mode. ◆ A new Season Pass feature will provide more in-game and cosmetic items and rewards, though only content from one of five seasons can be redeemed at a time. Season Pass holders also receive the Player DNA feature, which gives their players a unique set of Attributes. ◆ The 'Hepburn Mechanic' will be available for the first time in FIFA 22 - controlling the height of the pitch can help players change direction more easily. ◆ New improvements to the ball will enhance and control its movement on the pitch, which should allow for more accurate shots, through-balls, and through-volleys. ◆ New 'Ball Physics' system has been implemented which changes the way the ball interacts with the pitch. ◆ A new 'Jump System' has been introduced to FIFA 22, which allows players to jump further. ◆ Player Photos have been made an optional feature in FIFA 22. Thanks to FIFA's new Photo Mode, it is now possible to retouch your player's look with filters and stickers. ◆ There is now also a 'Team Switcher' feature in FIFA. This allows players to swap and play as multiple players at the same time, including creating different player roles within your squad. ◆ Over 1,100 new animations have been added to the engine. For example, free kicks and corners are now more realistic, while dribbling and ball skills have been improved. ◆ Real Player Motion**
