What's new in Fifa 22:

- **FIFA Ultimate Team: FIFA Ultimate Team is back and better than ever. Improved new card packs are just the beginning and players can get an added boost through the new unpredictably challenge system.**
- **New online Seasons: Seasons are back for Club World and Confederation-level competitions. The Confederation is reworked and now includes a new 10th**

nation.

- **FIFA Ultimate Team Stadium Editor:** The award-winning FIFA Ultimate Team Stadium Editor can now even be downloaded outside of the FIFA game itself. The Editor is separate from the game, but it comes with the game. This allows for more flexibility than in the past. Previously, players had to download the Editor before they could work on their clubs. Now, they can download and work on their clubs at any time.
- **Updated International Team List:** The FIFA 19 international roster and team are updated in FIFA.
- **New FIFA Icon:** This year's icon design has a sweeping diagonal line through the foundation of the player's shirt to represent the fabric used on the latest FIFA jerseys.:

Hypermotion Technology:

- **New ball physics:** The ball physics has been upgraded to reflect the authenticity of the real-life ball. This change enables the ball to bounce realistically and response to external forces. This adds an unpredictability to the game that gives players a greater sense of unpredictability with their ball control.
- **Improved player movement :** With a clearer view of where players need to be, players naturally find themselves in the correct position more quickly. This leads to a more fluid flow of the game.
- **Unpredictable challenges:** Players can now experience more unpredictable challenges in the game. Those challenges help to add excitement to game play and ultimately create better, more balanced game play. Even one unpredictable challenge can make the game different than other.
