Hockey fans rejoice! A completely new hockey experience is available with today's release of Bush Hockey League. The game features 5-on-5 arcade-style hockey gameplay where players will their opponents to submit through rough and tumble aggressive hitting and fighting. Where else will you find players fighting for the puck and fighting to get an advantage on each other? Players will throw elbow and shoulder checks, cross checks, hip checks, and dirty clotheslines to aggressively win the game. Each game will have a referee monitoring the action and the dirty stuff that happens on the ice, as well as the brawls that will occur from line brawls, bench brawls, goalie fights, stick fights, and knockouts. Bush Hockey League features real-time damage physics for increased player realism and unpredictable action that fans of 2-on-2 fighting games like Tekken will be sure to enjoy! Featuring the fighting system from Bush Hockey League, Bush Hockey League 2 on Xbox will give you a huge variety of fighting moves and attacks that will keep you on your toes. With features like street fighter-style specials and super combos, Bush Hockey League 2 features the same impact-packed punches and kicks you'd expect from a fighting game, and Bush Hockey League will keep you on your toes! Bush Hockey League features a number of new modes including Tournament mode where you can play head-to-head or teams against other users online in one-on-one versus, or you can pick from 10 different teams and compete against a real local lobby. Tournament mode supports local game play between an unlimited number of players and allows you to pick your own individual teams. Tournament mode also supports P2P play, so you can find other players to play against through Xbox LIVE for great playing competition. You can even play local multiplayer one-on-one-against, where you can decide who goes first by punching the referee in the face. Bush Hockey League also allows for online one-on-one multiplayer and allows you to connect to Xbox LIVE to challenge friends and foes from around the world! You can also compete in the Bush Hockey League Championship, where you can win prizes for your high scores, and you can also view leaderboards, and see how other users are doing! Bush Hockey League allows you to play a game of hockey in a completely new manner, and it is easy to get into the action with one-on-one, local and online multiplayer. Bush Hockey League is a new kind of hockey, where brawls will ensue and fights

You are not the smartest student in the class but

### What's new:

**Atlantis Royale is the tenth studio album by The Residents. It was originally released in 1973, as the Residents' first album containing songs by people other than the band's members. It was the last album released under the band's contract with Liberty Records, as they began negotiations to sign with United Artists Records that same year. While the album was met with mixed critical reception, it went on to be their most successful album to date, it earned them an Academy Award for Best Original Song, Nomination. The album's two versions differ in edit, track lengths, and content. The original version released in 1973 contained songs by other artists, including "Death of St. Peter" by Blood, Sweat & Tears, and "Mandy" by Todd Rundgren. This version has been out of print for over 30 years and has never been released on compact disc. The "Original Soundtrack" version contains the same tracklist as the original album with the inclusion of several classic songs that appeared on the previous albums, released at the time of its release. The song "Won't You Be My Neighbor?" is also not included. It was adapted as a children's television special and featured dialogue from the movie. The album was also released on vinyl in 1974. Background The Residents began recording Atlantis Royale in 1973, when band members Max Patkin and Frank Zappa argued over song selection. Zappa had started writing material for his 1974 live album Läther with songwriter/artist Martyn Bates, but Patkin referred the musicians to the group's other members, who rejected Bates' compositions. The band's manager and future manager Irving Eisenberg travelled to the final-mixing stage, rejecting songs presented by Zappa (three of which were in fact completed). After only three to six hours had been recorded, he left. Patkin and Richard Neill organized several auditions at various Los Angeles recording studios. These included David Mancuso, the owner of Ampex and the first recording studio in the United States, who went from there to produce three tracks. The album was the band's first to contain musicians other than the band's own members, and was first released in 1973, in January, on Liberty Records. Patti Newport decided to host the album's release party at Room 3 of Studio Z in Los Angeles. When the LP was pressed, his record company refused to release any more copies, effectively banning it.**

**Tournament is a medieval tournament simulation game that will allow you to build and manage a tournament ground. You'll invite knights and have them participate in jousts, sword fighting and archery contests. You'll attract nobles and peasants and try to keep them entertained! Build! You can make event areas for jousting, melee and archery There are lots of outlet buildings such as apothecaries, blacksmiths, ale wagons and hog roasts to make money from your visitors Hire staff members such as jesters, guards and troubadours Compete! Where Tourney differs from more traditional sim games is that you are both running the tournament, but you will have a vested interest in the competitors. You are the head of a noble house, so you can select champions to compete. You can (if you choose to) influence how you champions perform in the events. You can select tactics, set the running order to be more favourable, and exploit weaknesses in your opponents Tournaments can be brutal places. Make sure you keep an eye out for your knights and prevent them getting killed, develop them with training, and buy them better gear and potions There are 13 playable houses each with its own heraldry & roster of unique champions. Each house is based in legend or history There is a story campaign, a single scenario and sandbox modes that are set in four impressive legendary locations, for example a castle in Avalon, the island of Atlantis or the lost city of flowers: Gulansharo. The game fuses different styles of management gameplay where you are both responsible for competitors in the tournament, but also the effective set up and running of the facilities. So certain story stages or scenarios might require more focus on one or the other. The game continues to be developed, and you can look here for information on what is on the roadmap for Tourney!
