This indictment accuses Michael Cohen, the Donald Trump Organization, and its chief executive of having committed "racketeering acts" by "knowingly and willfully" committing, inter alia, the crimes of "conspiracy to defraud the United States, tax evasion, and making false statements to the FEC." Cohen pled guilty to one of the tax evasion counts and also pleaded guilty to the campaign finance violation. The Department of Justice told the Trump Organization that the office was satisfied that they had no role in the alleged crimes. It was a damning indictment of Donald Trump, but not of the Trump Organization. The principal bearing for the Trump Organization was Cohen himself. This indictment was then cited by the Department of Justice as a model to pursue similar racketeering charges against the founders of the firm Corsi, Weisselberg, Stone, and Manafort. The indictment against the firm and its founders was not just for tax evasion and other crimes, but also for money laundering and for "conspiracy to defraud the United States." Michael Cohen has also been singled out for perpetrating a fraud on Congress, perjury before Congress, obstruction of justice, false statements, and more. While these aren't necessarily new charges, they are new developments in the fight against the White House. In the wake of the Russia investigation, indictments against prominent Trump associates have proliferated to new levels. Perhaps the most significant implication of the indictments against Corsi, Weisselberg, Stone, and Manafort is that the other scores of people who have come under scrutiny by the Department of Justice also may face criminal charges for similar alleged crimes. The Trump Organization's overarching role is that of a front for Trump's personal financial interest in the five-star Trump Organization properties. This front is also the conduit through which Trump's financial interests get in the way of the government's attempts to reign him in. There is

a parallel indictment against Hannity and the Fox News Channel's former head of news, Suzanne Scott. The Department of Justice also charged Allen Weisselberg, a former bookkeeper in the Trump Organization, for his role in the tax evasion by the company. It is telling that the company's head of news and current affairs—Scott—was also charged. The indictment says, "The FOX News Channel's

(1 - 8 of 8) Paradiddle Free Download Uploaded Paradiddle was used in the online Magickal Mushrooms site as an introduction in recording and illustrating a simple paradiddle pattern. The simple paradiddle pattern has long been used in old time musicians to teach a new drummer how to keep their time and

measure their tempos. Traditionally a paradiddle is a sixteen-stroke pattern that begins a specific number of beats from the previous paradiddle. Examples: If four beats, then count a, b, c, d for your count. If eight beats, then count 1, 2, 3, 4, 5, 6, 7, 8. How to Use a Paradiddle as the Intial Pattern: The first paradiddle on this page is numbered 6 and it runs from two and a half beats to six and a half beats, or from 0:59 to 1:07 on the metronome. When setting up a paradiddle sequence, tempo is measured in quarters. One quarter (or eight beats) is set up with each paradiddle and so the first paradiddle will begin on the first quarter.. In the second paradiddle, the first quarter is held and the second quarter is set up. Although a paradiddle is a beautiful percussive pattern, it is usually easiest to understand the paradiddle concept by using the metric pulses that are generated by keeping a rhythmic count, such as "One-two-three-four." This sequence of 3/16 notes is a representative example of a paradiddle and is illustrated below: This sequence is a sort of "play-along" version of the original 16th note motif. The first paradiddle, (which is numbered 6) is a sequence of three eighth notes. The following eight paradiddles will each have eight eighth notes. The first series of measures is a perfect tempo but in order to stay in perfect time with the metric pulses of three eighth notes per paradiddle, set the drum speed to 8 counts per quarter. If you set up the first paradiddle as a quarter rest, the first four paradiddles can be played on the first quarter and the remaining paradiddles will be played on the following quarter. The second series of paradiddles will be used to establish the tempo as a simple patter of three beats per paradiddle.
