For the best experience on Osmotic, please sign up for an account. Your profile information will be automatically pulled in

What's New In HandBrake?

With AutoVideoConvert, you can create a video from your photos in as little as 1 or 2 clicks. Switch to Custom mode when creating a video from your photos. Use it to play back your photos like a video with gestures and emojis. Use the keyboard to type in text instead of using gestures or emojis. AutoVideoConvert will continuously run in the background to monitor changes in your photo collection. It will always be ready to take the next step in converting your photos into a video. In AutoVideoConvert, photos are grouped by source. AutoVideoConvert supports all popular photo file formats. When a new photo appears, AutoVideoConvert will check if it can be used to create a video, and then instantly suggest the best possible format for that photo. But what if you don't see one? No problem, AutoVideoConvert allows you to enter custom photo naming conventions to create a video from a collection of photos. With AutoVideoConvert, you can now make the process of making videos from your photos incredibly fast and easy. Benefits: 1. Create a video from your photos in as little as 1 or 2 clicks2. Create a video from any collection of photos, including imported ones3. All popular photo file formats supported4. Continuously monitors changes to your photo collection5. Always ready to take the next step in converting your photos into a video6. Group photos into source sets to make the process of creating a video from your photos incredibly fast and easy. AutoVideoConvert Features:1. Supports all popular photo file formats (JPEG, JPG, BMP, PNG, TIFF, PSD, PS, GIF, PDF, EMF, PCX, TGA)2. Supports all popular video file formats (AVI, WMV, MP4, MOV, FLV, MPG, MPEG, 3GP, MPEG-4, DivX, H.264, VOB, AVI, XVID, MP3, MPEG-1, MPEG-2)3. Automatic detection of videos from photos (audio in, photos out)4. Configure and Save settings for each video in a new folder under AppData5. Supports gesture-based playback for AutoVideoConvert6. Keeps the size of videos small (slower conversion)7. Fine control of all settings: Video encoding options (Like bitrate, speed) 8. Full control over
