dvdripsRecent developments in bacteriophage  
therapy. This review outlines recent

---

developments in the understanding of bacterial and viral pathogenesis, in research on the molecular biology of bacteriophages, and in applications of bacteriophages and their recombinant derivatives for treatment of bacterial infections. Lately, recombinant bacteriophages have been used in the development of a new generation of vaccines, where they proved to be highly effective in eliciting specific immune responses against a wide variety of pathogens. The use of bacteriophages for protection against or therapy of infections with Gram-positive bacteria is reviewed.

Q: Cant find new manager's inbox I am using Exchange 2010 and am trying to view the inbox of the new HR manager (HR2). I've configured my view to display the new manager's inbox. When I select the inbox view and click View I get "The mailbox name you entered is invalid." (which is true). I've tried to use other characters like R in the name. I've also tried searching with multiple names for the new manager's email address. I've tried verifying the email address, and found the manager in the list of users (and verified the association there). Any ideas?

A: In Exchange 2010, it's a GPO setting that determines the default search constraints. By default, it defaults to looking for the mailbox

---

in all mailboxes, which is why you can't find the mailbox. GPO's for Inbox Search Method (which you can change) Security Exchange Server Settings Viewing and Managing Incoming and Outgoing Message Rules You can also select a specific mailbox when searching by doing this: In your case, since you're searching for HR2, select Exchange Users Inbox Search Inbox Name=HR2 Or by searching by A-Z, use the following: In your case, since you're searching for HR2, select Exchange Users Inbox Search Inbox Name=HR2 Inbox Name=A-Z q r t ( 4 ) ) /
