What's new in Fifa 22:

- **Build your Ultimate Team from the ground up, selecting your personal brand of football and fielding your dream team from the world's greatest player on the pitch. Decide if you want to dominate with the best or show off with the greatest.**
- **Train and play as your favourite real-world superstar with Player Loans - sign star players with the tap of your fingers and strategically swap them in and out of your squad for the best minutes at any time.**
- **To guarantee realistic on-pitch and off-pitch gameplay, EA SPORTS has switched from artificial intelligence to a true physics-driven simulation. Tap into seven new attributes, ranging from sprint speed to ball and man distribution, to help make your game-changing moves before the ball even drops.**
- **Utilising a new collision system, players respond to physical contact with accurate, lifelike responses. Knock against a defender and see their balance beam drop, for example - or see them react to a sudden slide-tackle.**
- **Improve your defending with defensive 2-on-1s, pounce on an on-rush to create new**

opportunities or gather a loose ball under pressure. Advantage one-on-ones to establish possession, or spring a hasty counter by firing off a breakaway.

Features inspired by community feedback for FIFA 21:

- **New dribbling animations bring you closer to the action. When you hit a rampage through an opponent, the ball pops away from your foot and you get a better look at the motion of the dribble.**
- **Use contextual advice that shows defenders where to position themselves during run-ins.**
- **Experience true realism in on-pitch challenges when the ref blows the whistle. Controls instantly reset when the whistle blows, and the ref's whistling is actually heard. Flags for yellow and red cards, and the ref's final whistle even have new sound effects to add greater realism.**
- **Side by Side Refereeing provides better control for refs. Thanks to new camera tweaks, they see everything you do at the side of the pitch during on-pitch challenges, and have improved abilities to protect their goal area from shots, fouls and more.**
