My students work hard on their writing assignments every day. Unfortunately, most of these essays don't make the grade. In many cases, they are written by a parent or an older sibling and subverted to the children's own agendas to the detriment of their writing skills. For decades, we have had to watch the pressure on our children to "act like normal" in school put them at odds with their autism. They are diagnosed with ASD, and yet are expected to follow other people and behave in the same ways as the ones without autism. This can lead to their being inattentive, repeating behaviors, or other problematic things. Their parents often want to help their children, but the school doesn't seem to care, so they do what they can to help their children. With that in mind, we gave our whole school the following program: Ident

Learn to speak Italian with the easy-to-use Italian Language Learning App. What is it about? L-Lingo Italian Free is a helpful application that allows you to learn Italian quickly and efficiently. What is new in this version? Version 1.0.1 fixes a minor bug that was causing improper operation. Do you like the idea of learning Italian, without being challenged with an extra course or language course? L-Lingo Italian Free is probably one of the best options you have. L-Lingo Italian Free can help you learn Italian instantly without having to do the effort of attending classes, carrying around a textbook or asking somebody to speak to you through Skype. To start with, the application is simply displayed on the Home page and you can choose Italian as the default language, if you'd like to. After that, you can launch the application and adjust some settings, which include the speed of audio (choose from 30, 35 and 40 seconds per minute) and the style of learning (visual or auditory-visual), just to mention a couple. Next, you will get step-by-step instructions on how to set up the application, but it's not really necessary to look at them, as the application can be easily navigated inside. The next step is to choose what language you want to learn (English, French, Spanish, German, Russian, Portuguese, Italian, Chinese, Japanese or Korean). You can then pick a textbook and flashcards to help you learn Italian vocabulary, before you start taking quizzes to determine if you're progressing. But that's not all. L-Lingo Italian Free has a virtual assistant called Pia who will answer any questions you might have and help you learn Italian fast. Pros Efficient Useful (although only for learning Italian) Available offline (for those who don't have an Internet connection) Easy to use Cons Users have complained about bugs in previous versions Language choices are limited The application only learns Italian Reviews: In the end, I would like to sum up my opinion. I can't fault it as it does exactly what it states it does and does it well. What you get is a virtual teacher who speaks to you in the Italian language.
