Watch Harry Potter and the Prisoner of Azkaban film onlineQ: Java function to remove special characters Need to write java function that remove "ééææ" special characters. Function has one argument (string). String is in a different language, i.e. Spanish. Example to be removed: 4.e 8m 3 My function: public String removeSpecialCharacters(String x) { // TODO: Implement this function return x; } Thanks for help. A: You'll want to use "regular expressions". If you are talking about removing "substrings" - using method substring(int beginIndex, int endIndex) will retrieve the part of the original string within the range - meaning the actual text as is. If you are talking about removing any special character - use Pattern and Matcher For example (This is just a sample, there are many other ways): String str = "al me quierer no me siempre esta aqui"; str = str.replaceAll("(?i)[\\p{P}]+", ""); System.out.println(str); Which outputs: al me quierer no me siempre aqui Donald Trump may have an unprecedented ability to unite a country full of variously-partisan and even regional constituencies, but he can' e79caf774b
