

Train Simulator: EWS Amp; Freightliner Class 08s Loco Add-On crack exe file

Features Key:

- Addition of the Freightliner Class 08 Super Tracked Diesels, introduced in 2007. These locos can pull any haulage type on a rail network, including full GCT and WAGR track. The locos feature special PU and GP brake circuits allowing wheel slip and application of the emergency ramp brake. They are designed to haul dual trailer and single trailer trains.
- A new car body representing the Freightliner Class 08 Super Tracked Diesels, which begins production for the Australian market in January 2009 and will join the Freightliner design family of Freightliner Freightliner Trainset products and will be released early in 2010. These additional cars are required in order to run these locos across multiple locations.
- New cab to represent the design of the Freightliner Class 08 Super Tracked Diesels
- New 3D OO Gauge option. This option allows you to enter all of the necessary parameters to run the loco around your railway.

For full game info, as well as support and FAQ for Train Simulator: EWS & Freightliner Class 08s Loco Add-On please visit: * Use of Hauptbahnhof Since October 2008 station selection will be made through the EA game menu option. Please follow the instructions:

Select Train Simulator > User > Graphical Library -> Synchronise with a different Version

System Requirements For Train Simulator: EWS Amp; Freightliner Class 08s Loco Add-On:

Make sure your computer meets these requirements before you play: Your system needs to be compatible with the Steamworks API. If you don't know what that is, don't worry! It is simply a service that runs on top of Steam to allow us to communicate with you on the server. We need to be able to do this in order to play. If you aren't familiar with Steamworks, it's worth visiting our website and reading some of the help pages on what you need to do. Your system needs to have at least 32 GB of free disk
