Downloadable content for Mario & Luigi: Partners In Time is a list of all the DLC available so far for the Nintendo DS version of the game. As you can see, all available DLC for the game is included in this list. The list covers all areas that we were able to obtain so far. We have only missed a few, but even with all that you can see there is a lot of content and a lot of stuff to collect! But that still doesn't mean you should buy the game just to get those DLCs... Those DLCs are also available separately, so buying them will just be wasting money if you are fine with not having the content. PS. You should be aware that DLCs only include new content, and not any adjustments or changes to previous ones. Download all DLCs at once and only buy the DLCs you will use. By default, all the content will only be available for Nintendo DS.
