Here is the video game "LMA Manager 2007"! Released in 2006 for Windows, it's still available and playable with a little fiddling. The game is a very beautiful computer animation in which you play as the president of the LMA company, which makes electronic toys. The game is built as a turn-based strategy, that is, you need to make decisions and perform various moves. First you buy new toys from competitors, then you try to develop your own, and then you try to make toys that will be in demand. I played it and I will say that you can play it now. 0946cee1be
