Mafia The City Of Lost Heaven [ISO] Version Download

you're about to enter a brand new world of entertainment with mafia 2. a world where the mafia has been formed.. no, seriously, in mafia 2, you're going to be playing as a mafia captain, who will be trying to build up a criminal empire, and corrupt the new york city government. this is a mafia simulator, and mafia 2 is basically a massive open-world game, where you're the leader of the mafia. when the first mafia was released, it was a perfect crime. the developers made a classic, well-paced and instantly-entertaining game with a perfectly-executed sense of humor. now, a couple of years later, the mafia series has gone from strength to strength, with mafia 2: the city of lost heaven, out now. this time round, hangar 13 are set on a different kind of adventure, and they're taking their inspiration from the first game.

the objective is to take down a mafia family, and take their place. but unlike the first game, mafia 2 is a proper stealth game, with proper stealth mechanics. you can't just walk around shooting things and expecting to get away with it. oh no, in mafia 2, you'll need to use your wits as well as your brawn to survive. it's a great new direction for the mafia series, and a great new chapter in gaming history. the mafia has been a mainstay of the gaming world since the late 1990s, with the last iteration of the franchise being mafia 2: the city of lost heaven. this is a new iteration on the franchise, bringing a whole new style of gameplay to the table. it's also the first time the mafia has been released in a long, long time, so we'll see how it goes.
