Robert Greening Racing Cup 2011 Download Full Torrent Show HN: Icebreaker.io - A real live website builder to create your own website - jerrylots Hey HN!! I'm Jerry and this is Icebreaker.io. Icebreaker.io is a real live website builder that allows you to create your own website from scratch for free. You can make your own website, right now, that is usable, not just a 'design' and it can be done for free. You can use any content you like, no registration required and it is completely free. If you don't like what you see, delete it and create it again. You can make your own site for free and it is completely free. Check it out and let me know your thoughts! I'd love to get some feedback. I'm not trying to build a business out of this, but hey...maybe? If not, I'll shut it down so nobody feels bad. :) <https://icebreaker.io> Thanks ===== kaishiro OK, I don't really see myself using this site. However, I think this is a great concept! I like the presentation, and it could be applied to lots of other things, as well. Good luck! ~~~ jerrylots Thanks! That makes me happy :) Q: How to get the original name of a file in T-SQL? I am using SQL Server 2012 and have a situation where I have downloaded a file from the server into my PC which I need to know the original file name on the server. How can I do that? A: This is not possible, at least not in a general way. What you can do though is rename the file using a File RENAME function, and then create a backup of it in order to restore it at a later date. A: Microsoft doesn't offer this functionality at the moment. However, if you have file name in your database and you want to create a new file you could use a transactional DML function as below: BEGIN TRAN
