System Requirements:

As already mentioned above, PUBG does support mouse and keyboard only. Xbox One can be used with a controller, but there's no support for keyboard and mouse. Nintendo Switch supports both controllers and keyboard and mouse, but will not work with mouse and keyboard. Playstation 4 will also not work with mouse and keyboard, so you have to use a controller. Xbox 360 has no controller support, so it will only support keyboard and mouse. All versions of the game need a recent Microsoft Windows 10 install and need to be installed on a hard drive, not an SSD.
