Dekada '70 (2002) - Wikipedia, the free encyclopedia Supporting behavioral health in rural and urban U.S. communities. This study explored the degree to which rural and urban mental health policy makers were integrating rural and urban perspectives into their policies. Policy documents from one state, Michigan, were used to measure extent of integration. The literature suggests that policy makers increasingly recognize the influence of rural and urban environmental factors on mental health. The literature suggests that rural and urban health care and services

have limited integration. Data indicate that regional mental health policy makers are increasingly taking into consideration the mental health impacts of urban and rural living environments. There is little integration between rural and urban perspectives on rural and urban mental health care and services, particularly at the policy level. However, policy makers appear to be supporting some level of integration of rural and urban perspectives. Joe Biden's State of the Union response has gotten a lot of attention, as has his praise for President Obama. The former vice president rightly focused on two big problems: a looming pension crisis in New York and Illinois, and the terrible shootings at a high school in Parkland, Texas. But the former vice president also took a swipe at the man who is currently at the White House. Biden said that while President Trump was "terrific" at fundraising, he was "not going to do what's right for the American people" on a "moral issue" such as climate change, and "should not be rewarded for it." He then went on to argue that Obama showed the way to take on climate change. "He was determined that we turn the page on a generation of shameful inaction," Biden said. Never mind that the United States is the only country on earth to have refused to join the Paris climate accord, a decision Obama had committed the country to uphold in his last State of the Union. The former vice president offered a very weak case for Obama's legacy on the environment. Biden called the climate accord the "first major step to stand up for

future generations.” But the climate accord was a failure. Climate scientists and policymakers like Virginia Governor Terry McAuliffe, f988f36e3a
