If you are looking for live sex cams with free broadcast, look no further. There are thousands of live. The. com 4 Free Sex Cams. Want free sex on webcam? A place that gives .The present invention relates to a semi-fastening ball lock connector, more particularly to a connector for coupling a first member with a second member. A conventional connector for coupling a first member with a second member is shown in FIG. 6. A T-shaped clip 7b is provided at one end of the first member 7a of the connector 7. One leg of the clip 7b is inserted into a slot 8b of a first aperture 8a in the second member 8. A diameter of the clip 7b is greater than a diameter of the slot 8b of the first aperture 8a. The clip 7b is secured in the slot 8b of the first aperture 8a by means of a locking portion 9a of the clip 7b. The conventional connector 7 is further provided with an unlocking guide portion 10a on a second leg of the clip 7b. The guide portion 10a is received in a channel portion 6a of a retainer 6 which is secured to the second member 8. A diameter of the unlocking guide portion 10a is greater than a diameter of the channel portion 6a. When the connector 7 is assembled to the

second member 8, the unlocking guide portion 10a is guided into a guide portion 6b of the retainer 6 and then biased. The locking portion 9a of the clip 7b is retained by the guide portion 6b and thus the connector 7 is secured to the second member 8. The conventional connector 7 has a disadvantage in that the clip 7b is easily disengaged from the first aperture 8a due to external force such as vibration or shock applied to the second member 8. A lead conductor 16 is inserted into a slot 15a in an insulation housing 15 of an IC and a head 16b of the lead conductor 16 protrudes from the insulation housing 15. When the conventional connector 7 is used to couple the insulation housing 15 with the second member 8, the clip 7b may be disengaged from the first aperture 8a due to external force. Another conventional connector for coupling a first member with a second member is disclosed in U.S. Pat. No. 4,352,538. A T-shaped retainer has a hook portion which is inserted into a second aperture in a second member and has a hole in which a first aperture in a
